PROJECT:

Peeled coconuts (Brown coconuts) or without peeled coconuts (Green or dry coconuts) are living organisms (germs, or cells), if we kept the both of the coconuts in the water for a few months and kept in the soil, watering and nourishing them in some months can cause the process of breeding and sapling.

In addition, both coconuts have strong gravity. And water also has the force of gravity. (also a tree branch) With the help of these, we can easily detect the presence of water in the earth, and poisonous creatures and other unknown powerful forces (unknown living organisms) within a maximum distance of about a thousand miles of earth. It has a higher gravitational force than the magnet. But this same experiment is not possible with any technologies, radio waves, ultra scanners, gold detector machines. Because of the strongest forces, and treasures in the earth and underground are powerful, they are not visible to any technology.

Just as the radio waves sent to Mars, the missiles are not able to disperse the information from those, the forces on the ground are just as powerful and sensitive as Mars, and their brief and much information is not available to the wise.

OR

It's impossible to get the information of the mars through the radio waves, or some other technology similar way that the forces on the ground are just as powerful and sensitive as Mars, and their brief and much information is not available to the wise.

Similarly, 88% of the Earth's treasures (Earthworm), such as earthquakes, are causing hazards, deaths and infertility of women, around the world today. Earthworm is also an invisible force. It can only be seen in the naked eye as a toxin (dead) in the earth. Until then, it remains a invisible force for man Infertility, nervousness, divorce, handicapping, non-marriage, body diseases and nightmares appear in the form of cobra, grandchildren, flowing water, swamijis (gurus), guru, grandparents. This also results in

wastage of wealth, 54.1% of automobile accidents and suicides are attributable to this same land (in the Earth). The wealth of the rich is getting worse as the water in the sand goes down. Research has shown that geothermal is also a toxin. But that organism is like a thousand forms. The serpent, giraffe, mud, chamber, other germs, worms, rodents, small children, and so on are all different forms. With 8 years of research, the same etiology is causing problems such as handicaps, headaches, massage addiction, quarrels, eye problems, nightmares, irritability at home, and not getting married. Since it is an invisible force, not enough earthworms are easily trapped by man. There are only a few! Because it can be said that it is their Yoga or fate or destiny.

Not only the earthworm (germs, living organisms) but also some of the poisonous germs that enter the human body. And the above factors to the humans are causing problems. Of course there is the creation of some genes where meat is present and where there is meat impurity. Genes means it's a demon. There may be architectural problems (Vasthu problem) in a house or other illnesses on the one above the other, or a snake dream, a girl's dream, or a young child's dream. Nor is there any magic spell (witchcraft), nor is it a genealogy or a chromosome. This appears to be an architectural problem in a home that is hidden in the basement of a home or in their land, or in the presence of any influential species. According to Sisbra, 55% of women have infertility due to certain poisonous spirits or evil spirits. Earthworm is also toxic. 27% of women have infertility from thyroid problems. 73% suffer from infertility and ghost and other forces

Practical explanations: The life of a man remains normal since it is usually not visible of unknown forces to the common man. But if everything was visible to man, he would get a reference to every living thing on earth. The content was clearly getting in the gamut of realism. Farmers, or the general public, get this technology in their fields, in their dwellings, or in other areas to water source

the bore well for water problems. In the village side or rural areas, as mentioned above, tiger pellets, peeled coconuts, or without peeled coconuts, water in one mug and water with the help of the other five physical elements and make the point (identifying the water resource). Then the water falls when the earth is drilled. Sometimes may not fall. These are the reasons why water is not falling. Underground, when there is a treasure within the earth, there is a great deal of water for the person who comes to the treasure with its treasure, demons, ghosts, and other tremendous forces, the Maya Serpents, to test the waters, with the help of peeled coconuts, water, and other things, He does. But the water does not fall. Because there are treasure, serpent, demon, and other tremendous forces in place of water, the water points to the water pointers (to the human being). But the water does not fall when the bore well is drilled. What they do not know is that there are treasures here, Treasures and snakes. But if you don't leave the same place and see the point again, the water will drill down, if the place does not live in one place.

Here is how the energies in the womb are invisible and how the energies on Mars are invisible to the radio waves transmitted from Earth. The life of Mars is very sensitive to any technology or radio waves transmitted from Earth to man, and he does not come to himself. The living organisms on Mars are so sensitive and invisible, that they are sometimes barely visible to the eye or even microscopic or any radiation. The powers of Mars are invisible, such as how on earth there are sometimes ghosts, or how the invisible forces are sometimes seen by the camera or human being.

Basically, not everyone will have these experiments. There are reasons for this. These efforts are possible only for those who are born in the stars of Moola Nakshtra, Magha, Ashwini, Revathi, Ashyala and none are born on the mouth. But once a Nakshtra exists, such as a dog or a serpent, a cat can bite and these could not happen. Here are a few of the things I have experimented with and researched in some of these experimental the reality is described here.

Practical Experiments 01: Chandrasekhar came to the monastery once. Knowing that he sees the bore well point (water point), he watered in a packed bag (one mug of water) as his wish and ordered him to search water point in the monastery. He placed the jug of water in his right palm and moved around in the monastery. But there was also an earthworm about five feet into the ground where I was sitting. Chandru does not know that. But Chandru began to turn around and lifted himself up as the water jug started to spin and Fallen. Then I headed back to the backyard of the monastery. There was also an earthworm. Even there he was spin off and thrown. He argued the same amount of water here. But it wasn't.

Finally, he took him to his hometown. Because in his yard was the idol of God Mastheamma, nearly eight feet below the earth. But there was also treasure with the idol of God. It came to God for its salvation. The idol of God, the treasure, and the everlasting thing can move around. Because the earth is in a state of rotation. As the ocean water resembles the sun and moon, the treasures of the earth's surface begin to move as the ocean water level rises again during the day when the oceans are reduced. In his yard, I saw God and the demon in my vision and ordered Chandru to give him a water bag (one mug of water) before powering it up. He did the same thing there and turned him on the hill. The body showed no energy at all. He said, "Here is water." But I have water here and there is a treasure with the idol of Goddess here. Many times you have the same

treasure, demon, snakes, and invisible poison. When he dug up the soil and checked him again, he was struck again. But when the soil of both feet was dug, the idol of God was lost and the treasure fell to the stone and turned into stone. But it was only a stone-shaped colour for people watching. It seemed like a treasure to me. When Chandru was finally checked again in the button, he did not show any signs of doing so. Instead, he was drawn to the fallen stone and caught with the highest gravity and attraction. To me it was like a magnet and it was just a stone and a treasure. But if this same experiment was carried out on the lifeless gold, it would not give this effect. Not even a stone was given.

Experimental Experiments 02: Bringing Chandrasekhar back to another field crop and pointing to the bore well, he turned the girder up to a similar water level. But there was no water there. Finally called the Borewell vehicle where the water was drilled and drilled at about 500 feet. Again, Chandrasekhar was given water in the mug, and the coconut was replaced by a coconut, to see if it was water or not, and he turned the treasure around the same bore well point. He said he has water here. But the water did not fall.

Experimental Experiments 03: Another person was taken to a similar trial. There, the person also observed the water level in the chin with peeled coconuts. On one hand, he seemed to have low water levels. I said it was true that there was water there. He again observed that the water

level was low, even though he again observed coconut water. On the other hand, he felt the water level was too high. He could not stop there. He said the water is high here and I checked the place and there is a demon. The water fell near the first point of borewell drilling at both locations, which he did not see. But the water did not come near the second point. Despite drilling at about 400 feet, no water came. When the man was again asked to test the water with a coconut, he again showed that there is water there.

About Author:

Sarahu Nagarazan, 01/06/1988 was born as a human incarnation to the earth. And he has come for the welfare of world. What he has suffered in this human incarnation is as follows. Beginning with the vicissitude of his Love. He did continuously 8 years DhyĀna or hypnotism for his first lover Uma. In these 8 years, last 4 year's Suma came into his life and infringed in DhyĀna or hypnotism. Then he continued DhyĀna or hypnotism for Uma. After 8 years instead of getting the power of hypnotism, he received the grace of illumination on god and world. Uma is elder than him a year and Suma is also elder than him two years.
